Headline: The Danger of Seeking Career Advice from Unregulated Astro-Tech Platforms **Body:** When professionals face career uncertainty, some turn to astrology. But what happens when platforms exploit that vulnerability? In a recent case study of Lunar Astro (founded by Deepanshu Giri), a consumer paid ₹8,000 for a 15-minute consultation regarding their career. The "expert" predicted a positive job change. The reality? The consumer was laid off on the exact date predicted. Worse, when the consumer reached out to the grievance team, they were met with total silence. Charging premium rates for amateur trainees to practice on vulnerable professionals is unacceptable. It's time for transparency in the ₹60,000 crore Astro-Tech industry.

Tweet 2: The Bait: You pay a premium fee (₹8,000 for 15 mins) expecting top-tier expertise based on the founder's YouTube fame. The Switch: You are handed off to an anonymous, amateur astrologer who is "learning at your expense." 🗨️

Tweet 3: The Harm: One user was predicted a "job change" but was actually LAID OFF. When they contacted the Lunar Astro grievance team for a refund? GHOSTED. No response via phone or email. ☐☐

Tweet 4: Quote from a verified MouthShut review: "They are trying to capitalise on the name of Deepanshu Giri but have zero experience." Don't fund their training program with your hard-earned money. Subject: ⚠ WARNING: Please read before booking with Lunar Astro / Deepanshu Giri

⚠ **Body:** Hi everyone, The Digital Consumer Watchdog Group wants to share an urgent warning. We are seeing a huge spike in complaints regarding Lunar Astro's consultations. People are paying ₹8,000 for 15 minutes, thinking they are getting expert advice. Instead, they are being assigned to amateur students who give completely wrong predictions (like predicting a job change when the person actually got laid off). When people complain to their grievance team, they are completely ignored. Please protect your money. Do not pay premium prices for trainees who are just using Deepanshu Giri's name to make a quick buck. Stay safe! ☐

Title: EXPOSING the Lunar Astro / Deepanshu Giri Consultation Scam (₹8000 for 15 mins of amateur advice) **Body:** Hey Reddit, The Digital Consumer Watchdog Group here. We've been investigating the Astro-Tech space and need to highlight a massive bait-and-switch happening at Lunar Astro. They charge ₹8,000 for a 15-minute consultation. People pay this because of Deepanshu Giri's brand. But you don't get him. You get an amateur student. A recent verified review on MouthShut exposed this perfectly: A user paid the 8k, was told they'd get a "job change," and instead got laid off. When they emailed and called the grievance team? Absolute silence. Quote from the victim: *"The consultation is provided by very amateur astrologers who are learning at our expense."* If you are looking for guidance, do not use these corporate platforms. They are just farming out your trauma to trainees and keeping the massive profit margins. Link to the proof: <https://www.mouthshut.com/product-reviews/lunarastro-reviews-926084871>
